Damir,

Numerous times we've requested from you or Abtelecom a signed copy of our MIT/Abtelecom Termination Agreement. We have yet to receive this. We've been patient and given you and Abtelecom many months to follow through.

We've requested multiple times this signed contract from Ergys at Abtelecom via email, fax, and by phone. Lawrence and I had a quick conference call with Ergys this past Monday. He assured us this document was forthcoming the next day. We have yet to receive it. We've been unable to reach him the rest of the week. Ened, our other Abtelecom technician, hasn't responded either to calls or emails. Nonetheless, this responsibility is yours.

Aside from the many failures on your end to deliver to MIT key advancements to our business model, we need you to follow through immediately with item number one on the list -- our officially signed, stamped copy of our MIT/Abtelecom Termination Agreement. We expect this FedEx'd, emailed, or faxed to Steve by next Wednesday.

Thank you for your understanding. We can simply no longer be patient. As a businessman, you can certainly appreciate the position we're in.

Sincerely,

Steve

Contributed collectively by MIT partners.
