Tony/Steve

I just got the contract from AlbTel lawyer, so I am forwarding it to you.

As I told you on Friday Minister of Telecommunications has approved this contract and given a go ahead to AlbT. to sign it, if we wanted to make significant changes to it, it would need to go back to the ministry and have their lawyers look at it etc.

If we are OK with this (this is a standard interconnection agreement that they have with a twenty something world operators, adjusted for VOIP) just sign four copies and send it to me to the following address:

Damir FAZLIC  
Sheraton Tirane Suite 604  
Sheshi Italia  
Tirana Albania

As we agreed earlier we would aim to install our equipment week beginning 16th, in the mean time please forward to me technical questionnaire so that you can get hold of the right equipment.

We should be on air a few days after 16th, I will be there to help your engineers.
