Small change to this paragraph:

We anticipate being able to provide you all 25 MW capacity for each 5 facilities of this same CAT Power Module over the coming 30 days. We don't expect the prices to be any higher per unit than the current 21 units listed below. Most groupings of units will not be coming

from one destination, but rather from areas all over the world which simply takes additional time to coordinate.

I believe this is the CAT brochure we can show too.

Guys,

Leaving out of town for a few hours and will continue this tonight. Here's what I have so far. I am only showing our cost in this at this point.

What do I mark up to Damir? 10% ?

I'll then do a total package talley too.

Thoughts?

Steve.
